A little about Mom's day.

An illustrative example. This is not a real client record.

A comfortable afternoon.

Mom ate lunch and was in good spirits. We spent some time on her puzzle. Nothing unusual to report.

A little about the visit

Lunch prepared. Kitchen tidied. Time together on her puzzle.

For the next visit

She'd like to finish the border of the puzzle.

Anything for the family?

No follow-up needed from this example visit.

A concern that needs a conversation is shared directly. Routine notes don't replace that conversation.
